Intro to Music Technology – SPRING '12
Practice HTML Assignment – 100 points toward Weekly Assignment Grade
Due end of class period – email or printouts are acceptable

Directions: Format the following text with the basic HTML tags we learned in class and from the tutorials and your handouts. Make the formatting logical so that when you read the source code, it is readable. Be sure to include the required elements from the HTML Document Template.

My Diary: [your name / ufid here]

November 19, 2003

Today my boyfriend and I took a drive on his motorcycle and went out to see the waterfalls near Stuffy's Point. It was a beautiful trip, and there were a lot of pretty fish swimming in the pool at the bottom of the waterfalls.

I really love Johnny's purple Kawasaki. It's the coolest motorcycle I've ever seen, even though I've never known another guy with a motorcycle before. Riding without a helmet is *so cool*, I'm so happy Florida doesn't have stupid helmet laws.

I have to remember the following things to buy at the store:

• Milk
• Eggs
• Cheese
• Butter

I need that stuff so I can cook omelets for Johnny on Sunday morning! Boy he **loves** cheeseomelets. And he's just **so darn cute**! I totally love it when he drives the motorcycle onto the sidewalk and runs down pedestrians too. Those people just annoy me.

You need not reproduce the horizontal lines pictured above, just the text.

You will need to use the following HTML tags to complete this assignment:

<strong>, <p>, <em>, <ul>, <li> <h1>

and perhaps a few others. You can either handwrite this assignment or use a simple text editor, but DO NOT USE MICROSOFT WORD to write HTML. Don't worry about colors or fonts, just get the formatting identical to what you see above.

Turn in your HTML by copying and pasting it into an email to me or attaching a text file.
