| | | |
|---|-----------------|------------------------------------|
|  | Glossary | View Full Glossary |
|---|-----------------|------------------------------------|

First Owner
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

New Owner Reported
When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued
A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

It keeps money in your pocket.

NHTSA Crash Test Results

| | |
|-----------------------------|----------------|
| Frontal Crash: | Rating: |
| Driver | ●●●○○ |
| Passenger | ●●●●○ |
| Side Crash: | Rating: |
| Front Seat | Not Tested |
| Rear Seat | Not Tested |
| Rollover Resistance: | Rating: |
| Rollover Resistance | Not Tested |

LEGEND

| | |
|-------|------------|
| ●●●●● | Good |
| ●●●●○ | Acceptable |
| ●●●○○ | Marginal |
| ●●○○○ | Poor |
| ●○○○○ | Very Poor |

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - **full-width frontal crash test**, **side impact crash test**, and **rollover resistance**. The frontal crash test indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

[Back to top](#)

IIHS Crash Test Results

IIHS Crash Test Results for the 1995 NISSAN 240SX/SE are not available in CARFAX Safety & Reliability Ratings.

[Back to top](#)

Low-Speed Damage Repair

Front Crash Description:

Front into angle barrier

Rear Crash Description:

Rear into flat barrier
Rear into pole

Average Damage Per Test

Front Crash Cost:

Not tested by IIHS
Not tested by IIHS

Rear Crash Cost:

Not tested by IIHS
Not tested by IIHS

Not tested by IIHS

Insurance Institute for Highway Safety (IIHS) conducts four 5 mph crash tests to assess bumper performance. These results convey how well this 1995 NISSAN 240SX/SE bumpers will protect the car body from damage in low-speed collisions. Low-speed damage repair costs are obtained from the Insurance Institute for Highway Safety, Highway Loss Data Institute.

[Back to top](#)

Injury, Collision, & Theft Indicators

Index:

[Injury Index](#)

[Collision Index](#)

[Theft Index](#)

Score:

150

177

18

Rating:

Substantially worse than average

Substantially worse than average

Substantially better than average

These scores are stated in relative terms, with 100 being the average for all cars in each category. Scores greater than 100 represent higher risk in each category. For example, an injury indicator score of 122 means that a passenger in this model is 22% more likely to be injured in an accident. The injury, collision, and theft indicators for this 1995 NISSAN 240SX/SE are provided by the Insurance Institute for Highway Safety, Highway Loss Data Institute. [Learn more](#) about these results.

[Back to top](#)

Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 1995 NISSAN 240SX/SE by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 1995 NISSAN 240SX/SE still has open recalls that require repair, CARFAX recommends contacting an [authorized dealership](#) for more information.

| | |
|------------------------------|---|
| Recall date: | Not reported |
| Units potentially affected: | 7,500 |
| NHTSA campaign number: | 94V135000 |
| Defective part or component: | BRAKES:WARNING SYSTEM |
| Description: | THE INSTRUMENT PANEL BRAKE WARNING LIGHT WILL NOT ILLUMINATE WHEN THE BRAKE FLUID LEVEL IN THE MASTER CYLINDER DROPS SUFFICIENTLY TO ACTIVATE THE LOW LEVEL SWITCH DUE TO AN IMPROPERLY WIRED DIODE, REQUIRED BY FMVSS NO. 105, ""HYDRAULIC BRAKE SYSTEMS."" CONSEQUENCE OF NON-COMPLIANCE: THERE WOULD BE NO INDICATION TO THE DRIVER OF THE VEHICLE THAT BRAKE FLUID WAS LOW. LOW BRAKE FLUID CAN BE CAUSED BY A LEAK IN THE SYSTEM WHICH MAY RESULT IN PARTIAL OR COMPLETE LOSS OF BRAKES AND AN ACCIDENT. DEALERS WILL CORRECT THE ELECTRICAL CIRCUIT FOR THE BRAKE WARNING SYSTEM SO THAT THE WARNING LAMP WILL ILLUMINATE WHEN THE LOW LEVEL SWITCH IS ACTIVATED. |

This 1995 NISSAN 240SX/SE safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

NewCarTestDrive.com

Category:

Summary:

Review:

Grace over flash

By Professional Test Driver, NewCarTestDrive.com

Overview:

No doubt, the gearheads will find something lacking in the Nissan 240SX's upscale move - and its accompanying emphasis on comfort over flash. But Nissan probably figures that offering four flavors of its awesome 300ZX road warrior is enough to satiate even the most rabid of racing enthusiasts.

For the rest of us, the graceful lines of the 240SX offer a dignified way to make sure that the transition into middle age is a relatively painless one.

When the now-redesigned Nissan 240SX rolled off the assembly line last summer, we were surprised by the transformation it had undergone. This new version blurs the fine line between sports cars and upmarket vehicles because Nissan has downplayed this car's racier lineage in favor of a more genteel and understated design.

All of this has been at the service of folks who favor graceful styling over road-burning performance, but who see themselves as too young to retire to a stately sedan. In short, the 240SX has been tweaked to cater to the changing values of the baby boomer generation - the first wave of which is now approaching the age of 50.

To that end, Nissan engineers have designed a more rigid body structure, extended the track and enhanced the suspension of the 240SX to ensure a more comfortable ride, easier handling and improved stability. Low to midrange torque has been increased to allow for smoother acceleration, and the suspension contact points have been made more compliant to reduce noise.

Inside, the old monofirm seats have been replaced by cozier 2-cushion buckets, and the placement of controls, knobs and switches is more sensitive to the ergonomic needs of the middle-age driver than they were in years past.

That's not to say that the new 240SX is a cream puff. It still incorporates the nimble handling, spirited acceleration and styling accoutrements that made previous incarnations so popular to those buyers who harbor sports-car inclinations. It's just that some of the 240SX's sharper edges have been smoothed and rounded out for comfort's sake.

We tested the high-end, sporty SE model, which comes with numerous standard-feature amenities that include a sport-tuned suspension, front and rear spoilers, projector-style foglights, driver-adjustable lumbar support, moquette fabric seats with a sporty center insert, remote keyless entry with an anti-theft system, and attractive analog gauges with black digits on a white background.

Our test model was also equipped with optional anti-lock brakes (ABS), limited-slip differential and a sunroof. Including the destination charge, that upped the price of the SE to \$23,163.

Standard equipment on both the base and SE models includes electronic fuel injection, front-engine/rear-wheel-drive powertrain, 5-speed manual overdrive transmission, power-assisted rack-and-pinion steering, independent strut-type front suspension and multi-link rear suspension, power remote-controlled mirrors, fold-down rear seatback, power windows and door locks, and dual airbags.
