General Background

Parte 1. Pre-Research Activities.
You will use and see the following words frequently in your web research. To further help you before you begin, briefly sketch the following vocabulary words. Then, for each word, list a specific strategy you will use to remember that word.

1. ¡Bienvenidos!

   Strategy: ____________________________________________________________

2. las palomitas

   Strategy: ____________________________________________________________

3. el carrito

   Strategy: ____________________________________________________________

4. la cartelera

   Strategy: ____________________________________________________________
Parte 2. General Page Surfing.
For this next set of activities, you will begin your exploration of the website. In this section, I would like you to only examine the site generally. Try not to get to bogged down with the details, and don’t worry if there are a lot of words you don't know. You don’t need them right now. Begin with the main page, and feel free to explore as much as need within the site.

5. Escribe 10 cognados del sitio web.

6. Write 5 words that you think you have figured out. They should not be cognates.
   a) En mi opinión, ______________ significa ______________
      Why do you think this?

   b) En mi opinión, ______________ significa ______________
      Why do you think this?

   c) En mi opinión, ______________ significa ______________
      Why do you think this?

   d) En mi opinión, ______________ significa ______________
      Why do you think this?

   e) En mi opinión, ______________ significa ______________
      Why do you think this?

7. Choose one of the películas listed on the main page. Escribe el título en español y en inglés. Is there anything different about the title in English and Spanish? Comment on any grammar or cultural differences that you notice.
